BS 9999:2017 Fire safety in the design, management and use of buildings - code of practice (Incorporating corrigendum No. 1)

BS 9999:2017 Fire safety in the design, management and use ...

BS 9999 has in part superseded BS 5588, the only parts of which are still current are those that relate to residential properties. BS 9999 has to be applied in its entirety, you cannot dip into it for piecemeal solutions. Although some fire safety knowledge is required, BS 9999 could be a useful tool for many designers.

Fire safety - Approved Document B vs BS 9999 | NBS

BS 9999 is one of the most important guidance documents dealing with fire safety in buildings and, as stated in the document, its principal purpose is to provide Guidance which gives a more transparent and flexible approach to fire safety design through the use of a structured approach to risk-based design where designers can take account of varying physical and human factors.

BS9999 FIRE REGULATIONS.pdf | Risk Assessment | Safety

The concept behind the development of BS 9999 and BS 7974 is that technical guidance on fire safety is provided at three different levels. This permits a design approach to be adopted that corresponds to the complexity of the building and to the degree of flexibility required. The three levels are as follows:

British Standard BS 9999:2017 has been revised for 2017 ...

concept of 'time equivalence', BS 9999 enables the benefit of ventilation from the fire compartment to be realised, resulting in reduced periods of fire resistance if certain

A Guide to BS 9999:2008
