PETER SKARZYNSKI ROWAN GIBSON INNOVATION

An innovation core includes courses on innovation, entrepreneurship, business and IP law, and policy. Students develop an "innovation portfolio" throughout the program that documents and highlights their roles and contributions in these various courses.

Innovation Core

Innovation Arctic Base is a sequel to the previous game Innovation Research Labs (Innovation Labs). It is built by Rolijok, and programmed by madattak entirely. The game consists of an underground facility in the Arctic where experiments are done as a scientist, or patrols of the area as a security guard, fending off infected individuals with signs of zombification, or trigger a reactor core ...
