Internet Router Solutions

In the days of surfing, streaming, gaming, and more, your Wi-Fi router is the single most important piece of technology in your home. Make sure you pick the right one.

The Best Wireless Routers for 2020 | PCMag

Like Google Wi-Fi, Eero is a mesh network router that comes with three devices that wirelessly link together, each covering around 1,000 square feet (speeds are roughly equivalent to AC1200). It can also route connections based on your current Wi-Fi needs to avoid problems.

The Best Wireless Routers for 2020 | Digital Trends

Press the reset button on the back of the router with a paperclip for 30 seconds and the router should default to factory settings. Use our guide to setting up a wireless router to get everything properly configured. If that's no use, you may need to consider buying a new router.

Top Wi-Fi Problems and How to Fix Them | Digital Trends

A good router set to Automatic will try to choose the least congested channel, but many cheaper routers will just choose a predefined channel, even if it isn't the best one. That could be a problem.

10 Ways to Boost Your Wi-Fi Signal | PCMag

A wireless router allows you to easily connect your computer to a broadband internet service, so you can share data files and stream media between Wi-Fi-enabled devices. Understanding the function and features of a wireless router is important to maximizing its effectiveness as well as making the smartest purchase for your household.

Wireless Routers: WiFi Router Options - Best Buy

The reboot process is simple on most routers — unplug your router's power cable, wait a few seconds, and then plug it back in. If you have separate modem, you may also want to try unplugging your modem's power cable and plugging it back in after a few seconds. Some devices may have a power switch....

How to Troubleshoot Wireless Router Problems

When you include totalWifi with your MTA internet plan, you'll never buy or have to deal with a router again. Instead, MTA provides and professionally installs a router-modem combo, called a gateway, which allows us to take away the need for you to manage your own home network.

Unlimited Internet | MTA Solutions

eero is the world's first home WiFi system. A set of three eeros covers the typical home. They work in perfect unison to deliver hyper-fast, super-stable WiFi to every square foot. It's simple to set up. Easy to manage. And gets better over time with new features and improved performance. Stream video, get work done, or swipe right in any room — not just next to your router. Finally ...
