Iso Line Lab Worksheets - Teacher Worksheets

10-degree intervals. Isotherm is the name given to the lines on the map. "Iso" means same, and "therm" can be interpreted as air temperature. Therefore isotherm means same air temperature. Isotherms drawn on surface pressure maps connect equal temperatures. Here are some helpful hints for drawing isotherms on a surface temperature map: 1.

Activity 2 DRAWING ISOTHERMS - University of Northern Iowa

These are called isobars, lines of equal air pressure. Show them the following map that includes values for each line: You can tell your students that these are values for air pressure at sea level. Ask them how the values would change if the measurements were taken at higher and yet higher altitudes.

Hello and welcome to New York Science Teacher. This site was created in 2005 with the goal of creating a central point where all Science Teachers, whether from New York State or the continent of South America could come to access quality teacher created materials.

New York Science Teacher ::: Science Labs, Science ...

The highest elevation will always be higher than the highest contour line, but lower than what the next contour line would be. Gradient is a measure of the steepness of a slope. It can be calculated using the formula on page 1 of the ESRT. Higher gradients mean steeper slopes, while lower gradients mean a flatter slope.
