Those who study material culture are situated in a wide range of disciplines such as archaeology, anthropology, geography, history, design, and sociology. Although material culture studies cross many disciplines, there are still theories, methods, and perspectives that are firmly located within particular disciplines.

### **Material Culture - Anthropology - Oxford Bibliographies**

Material culture refers to objects that are used, lived in, displayed and experienced; and the terms includes all the things people make, including tools, pottery, houses, furniture, buttons, roads, even the cities themselves. An archaeologist thus can be defined as a person who studies the material culture of a past society: but they're not the only ones who do that.

### **Material Culture - Artifacts and their Meaning(s)**

Pottery is an easily recognised form of material culture as it is commonly found as archaeological artifacts, representing cultures of the past. Material culture is the aspect of social reality grounded in the objects and architecture that surround people.

### **Material culture - Wikipedia**

Sociologists describe two interrelated aspects of human culture: the physical objects of the culture and the ideas associated with these objects. Material culture refers to the physical objects, resources, and spaces that people use to define their culture. These include homes, neighborhoods, cities, schools,...
