It's practically what you craving currently. This principles of compiler design aho ullman solution manual, as one of the most operational sellers here will totally be among the best options to review.

Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.
